## ***Part II DETAILED ACTION***

This office action is in response to applicant's amendment filed on April 7, 2005.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 21-22 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 of U.S. Patent No. 6,363,956 and over claims 1-2 of U.S. Patent No. 6,520,196 .

Although the conflicting claims are not identical, they are not patentably distinct

from each other because they claim substantially same structural and functional subject matters such as a telescoping pole assembly comprising first and second hollow telescoping sections, one telescoping section including a spring load detent pin and a first aperture, another section including a second aperture, a medial aperture and a ramped channel to receive the detent pin via positions in an arrangement as claimed, and a feature of “a weighed internal stop member” of said patent provides a same function of “means for blocking” and “not blocking” the spring loaded detent pin in different positions as the application claimed.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See MPEP § 804.

3. Claim 21 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,712,083. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim substantially same structural and functional subject matters such as a telescoping pole assembly comprising first and second hollow telescoping sections, one telescoping section including a spring load detent pin, another section including an aperture receive the

detent pin in an arrangement as claimed, and a feature of “a weighed internal stop member” of said patent provides a same function of “means for blocking” and “not blocking” the spring loaded detent pin in different positions as the application claimed. Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See MPEP § 804.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 21-22 have been considered but are moot in view of the new ground(s) of rejection.

### ***ACTION IS FINAL***

5. Applicant's amendment necessitated the new grounds of rejection.

Accordingly, THIS ACTION IS MADE FINAL. See M.P.E.P. ' 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 C.F.R.

' 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE

Art Unit: 3637

SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. ' 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
